

ZXFD-B5140

ZXRD-B5110

DRYING Oven

The LABWIT forced air drying ovens are engineered for your daily work, from routing simple glassware drying sterilization applications up to 200°C or 300°C, to the complex, controlled heating applications, for example, aging, bonding, curing, heat treat annealing, stress relieving, burn-in, hardening test purposes.

LABWIT provide ovens with two optional heating modes, ZXRD-series back heating, and ZXFD-series bottom heating. Both of them are designed to provide accurate temperature uniformity, with minimized temperature overshoot. For all 200°C models, the ovens are equipped with LCD control panel and can be programmed to run up to 9 different programs with 18 steps of temperatures and time segments.

- ▶ Forced-air convection and three dimensional heating systems ensure air circulation and heat distribution.
- ▶ Options of back or bottom heating models, up to 200°C and 300°C.
- ▶ PID Microprocessor controller with 9 segments and 18 steps, only on 200°C models.
- ▶ Large LCD display on 200°C models, and LED display on 300°C models.
- ▶ Argon-filled multiple glazed tempered safety glass window, 2 glazing for 200°C models and 3 glazing for 300°C models, optimizes sample monitoring as well as minimize heat losses.
- ▶ Electro-polished stainless steel inner chambers and round corners for easy cleaning and better air circulation.
- ▶ Safe protections: over-temperature limit protection, separate over-current fuses, trip switching protection over electric leakage.
- ▶ Non-volatile memory retains pre-set parameters in case of power interruption.
- ▶ Standard wheel casters available on all models of 210L and above in volume.
- ▶ Adjustable electro polished stainless steel shelving provides air flow around samples for uniformed tempering and allow for easy cleaning.
- ▶ 2 grids included as standard.

Air Tight Door

- ▶ Hermetic door closure system for optimal air tightness and minimal heat loss.
- ▶ “Push & Catch” design, easy to grip and operate.

Adjustable Air Vent

- ▶ Adjustable air vent for discharge of humidity evaporation.
- ▶ Adjusting knob located on side wall for easy access.
- ▶ Air vent located on the back wall.

Convenient Working Environment

- ▶ Complete stainless steel inner chamber.
- ▶ Low heat dissipation due to 50mm high density insulation.
- ▶ 2 shelves included as standard.

Specifications of ZXRD (Back Heating)

Model	ZXRD-B5030	ZXRD-B5055	ZXRD-B5110	ZXRD-B5210	ZXRD-A7080	ZXRD-A7140	ZXRD-A7230
Volume (L)	30	55	110	210	80	140	230
Heating Mode	Back Heating						
Programmable Control (9Segment/18 steps)	Standard						
Temperature Range (°C)	Ambient+5 to 200				Ambient+5 to 300		
Temperature Accuracy (°C)	0.1						
Temp. Uniformity (%)	< ± 2.5% (@max temperature)						
Display	LCD				LED		
Alarm	Enabled						
Timer (min)	1-999						
Settings	Digital						
Grids Included	2 (max 7)	2 (max 10)	2 (max 16)	2 (max 19)	2 (max 13)	2 (max 17)	2 (max 21)
